

Junior Achievement programs teach students how to manage money, maintain a personal budget and be fiscally responsible through a fun, hands-on curriculum. We encourage you to celebrate **Financial Literacy Month** with your students by exploring one or more of these program offerings. **Give your students the knowledge and skills needed to take control of their economic success!**

JA Finance Park[®] Virtual

A 3-hour program for grades 8-12 that build a foundation upon which students can make intelligent financial decisions.

- Discuss decisions related to income, expenses, savings, and credit.
- Includes several teacher-led lessons and culminates in a hands-on, online budget simulation.
